

Chelmsford Boilers Cookie Policy

Following changes to EU Law in 2011, we are obliged to be transparent about the use of cookies on our website. Although we don't set any cookies directly, there are some widgets that we use on this site that are provided by third parties who may set and may have already set cookies in your browser.

This article is designed to explain what cookies are, how chelmsfordboilers.co.uk uses cookies and how to control cookies.

So what are cookies?

Cookies are small text files that a website stores in your web browser's cache to allow it to identify you. They are not programs, and cannot harm your computer.

Cookies might identify you personally, such as when you log into a site, or just your machine when you visit a site to remember preferences you selected or to track your visit from page to page.

Cookies are typically used so a web site can remember where you left off the last time you visited. Some examples would include what you had in your shopping cart, which products you viewed, etc.

Does that mean websites know who I am?

That depends! If you log into a website, then yes they will know you by the details you provided. If you have not provided any details, then they won't know who you are.

Does this website set cookies?

No, chelmsfordboilers.co.uk does not set any cookies in your web browser directly. We do, however, use some widgets on our site from third parties which do set cookies.

What are third party cookies?

Third parties are other websites who provide functionality to this website. The Facebook Share/Like buttons in our "My Work" section is an example. Facebook place several cookies on our website to accomplish this.

What if I don't want these cookies?

You can delete any cookie you don't want from your browser and you can set your browser to accept/block cookies on a site by site basis. Information on how to control cookies in the most popular browsers follows:

Internet Explorer:

support.microsoft.com/kb/278835

Safari:

support.apple.com/kb/index?page=search&fac=all&q=cookies+safari

Firefox:

support.mozilla.org/en-US/kb/remove-recent-browsing-search-and-download-history

Chrome:

google.com/intl/en-GB/chrome/browser/features.html#privacy

Opera:

opera.com/help/tutorials/security/cookies/

It is always a good idea to update to the latest version of your browser from a security/privacy point of view. Many of the latest browsers incorporate "do-not-track" functionality.
